If you choose to add a **bank account** as your payment method, it must be verified before it can be used within Doulado.

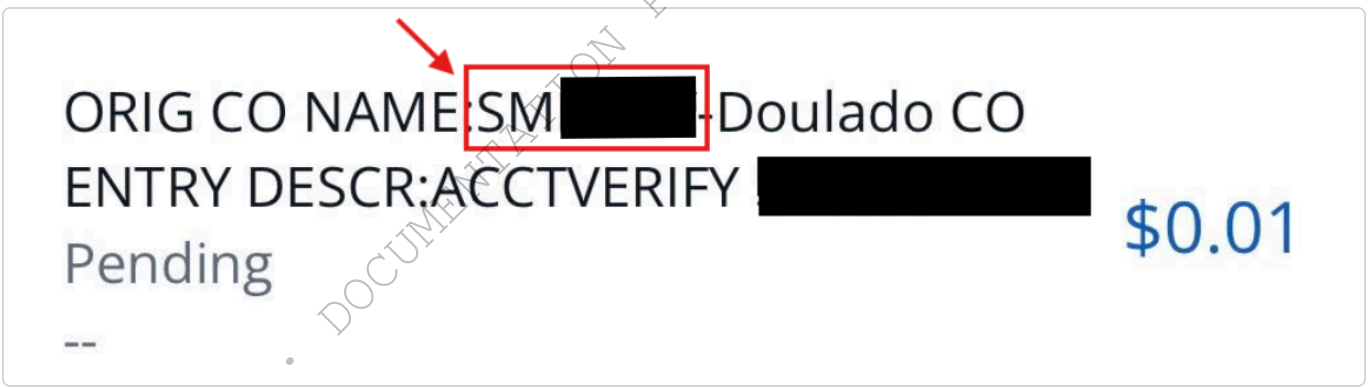

To complete verification, we will send either a single $0.01 deposit with a **6-character code** in the description, or two small deposits, for example 32 and 45 cents, to your bank account.

> These deposits typically arrive within a few business days.

Once either option appears, you can easily enter the code or confirm the deposit amounts by navigating back to your **Payment Methods** within your profile (see below (#-A0YXt)).

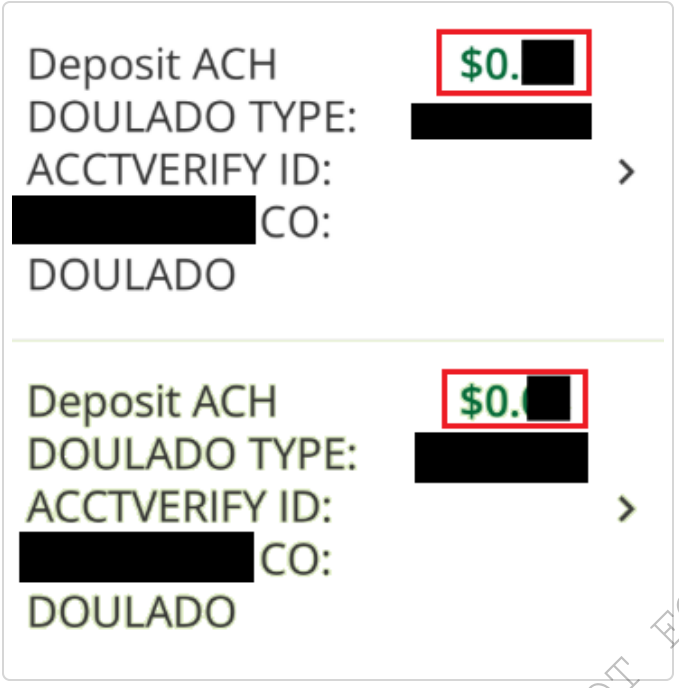

This process allows the payment processor to verify your ownership of the bank account.

3. If successful, you will receive an email confirming that the new payment method is now verified.

If your profile is a Doula profile, this payment method will be available as a choice when changing your plan or making deposits to your Team's funds balance.

> If you are intending to use this new payment method for future subscription charges, go to the **Plan Selection** window from your **User Menu** > **Modify Plan**.
>
> This new payment method will show up in the dropdown for you to choose.
