Surveillance Audit Timeline and Procedure

This document outlines the steps, responsibilities, and timeline to prepare for the ISO 9001:2015 surveillance audit, ensuring compliance with QMS requirements and continual improvement.

The scope of this process applies to all the departments, processes, and sites included in the organization's Quality Management System (QMS).

> The organization became certified for ISO 9001 Standards on [redacted]
>
> - Surveillance Audits take place once a year, 12 months after the certification.

Table of Contents

- Responsibilities
- Procedure
- Timeline
  - January – Documentation Review
  - February – Documentation Update and Internal Audit Notification
  - March - Internal Audit Execution
  - April - Continuation of Internal Audit
  - May - Filing of Corrective Actions
- Revision History

Responsibilities

Top Management	Ensure resources, set objectives, review results.
Quality Manager	Coordinate audit planning, communication, corrective actions.
Department Heads	Ensure readiness, provide evidence, close findings.
Internal Audit Team	Support pre-assessment, track improvements.

Procedure

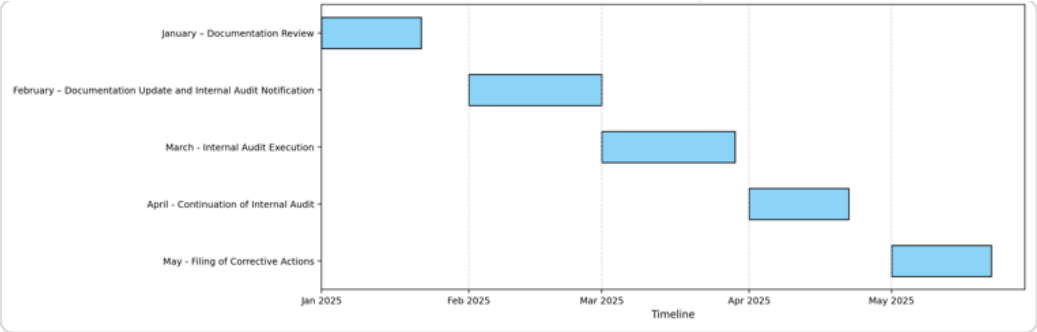

1. Documentation Review

- Communicate to all the department managers to update the list of processes/documents on their existing registry.
- Coordinate with the *Technical Writer* and provide the list of process documents that require updates per department before the upcoming Internal Audit.
- Create a checklist of ISO 9001:2015 documents, including the QMS manual, to review for potential updates.
- Check alignment with ISO 9001 requirements (e.g., scope, policy, objectives).
- Identify gaps, outdated content, or missing documentation.

2. Planning and Notification
   - Confirm audit scope, objectives, and schedule the surveillance audit preparation.
   - Notify all the departments at least 1 month prior to the start of the preparation.
   - Assign internal coordinators.
3. Internal Audit
   - Plan out the scope of the internal audit.
   - The supervisors will give a walkthrough on their operations, including newly-established processes.
   - Document evidence of conformity and take note of any potential non-conformity.
   - Provide a timeline for supervisors to comply, should there be any findings of non-conformity.
4. Filing of Corrective and Preventive Actions
   - Review the results of the Internal Audit.
   - Perform Root Cause Analysis for any non-conformity items.
   - Develop corrective and preventive actions with assigned owners and deadlines.
   - Verify effectiveness of actions through follow-up audits or monitoring.
5. Management Review Meeting
   - Verify corrective actions from the last audit.
   - Check the non-conformities and other findings from the previous audit and ensure that each one has been addressed, prior this year's internal audit.
   - Review the QMS performance from the previous year, customer feedback, and audit results, and discuss opportunities for improvement and strategic alignment.

Timeline

MARY SHARIA • DOCUMENTATION PORTFOLIO • NOT FOR DISTRIBUTION

January – Documentation Review

- **Week 1:**
  - Communicate to all the department managers to update the list of processes/documents on their existing registry.
- **Week 2-3:**
  - Coordinate with the *Technical Writer* and *Managers* to update process documents.
  - Create a document checklist (QMS manual, procedures, policies, work instructions).
  - Review documentation for accuracy, alignment, and ISO 9001:2015 compliance.

February – Documentation Update and Internal Audit Notification

- **Week 1–2:**
  - Continue documentation updates across all departments, specifically the processes under the scope of ISO 9001:2015.
- **Week 3:**
  - Confirm audit scope, objectives, and timeline.
- **Week 4:**
  - Notify all departments of the audit schedule.
  - Assign internal coordinators for the Internal Audit.

March - Internal Audit Execution

- **Week 1:** People & Culture
- **Week 2:** Talent Acquisition
- **Week 3:** ICT
- **Week 4:** Marketing

April - Continuation of Internal Audit

- **Week 2:** Finance
- **Week 3:** Payroll/BI
- **Week 4:** Automation
