NOC KB Process Flow

Kindly refer to this diagram to be familiarized with the NOC KB Process.

Requesting Access to Monday.com

> ⚠ If you don't have access to Monday.com or if you have access but have never signed in, you won't be able to submit an intake form.

1. Go to go/sphinx .
2. On the left side of the page, click on **Request Access**.

Screenshot

> 💡 If the page doesn't initially show this panel, click on the **tribar** ≡ on the top-left corner of the screen. Alternatively, you can also click on the **+** button from the left sidebar.
>
> Screenshot

3. In the **Access request form**, fill out the required fields.

Screenshot

4. Click on **Request Access** to submit the request.

4. Click on **Request Access** to submit the request.

> Once your access is granted and you've signed in, you will now be able to submit the intake and track NOC KB requests in Monday.com.

Logging in to Monday.com

To access the NOC Workspace in Monday, follow the steps below:

1. Go to this link: GFiber Monday.
2. Log in by clicking on the **SAML Provider** button.

   Screenshot

3. You will be redirected to the **Main Table** page in the workspace, where you'll be able to track progress for all KB requests.

Submitting an Intake for a KB Request

> You have to be logged in to Monday.com to load the intake.

1. Head over to go/fiberkbrequest.
2. Fill out the necessary fields to complete your request.

   Refer to the list below to categorize your **KB Request Type**:
   a. Create KB - make a KB article based on a given MOP
   b. Update KB - have a KB section modified
   c. Deprecate KB - get a KB unpublished
   d. Combine KBs - have a set of KBs merged into one
   e. Identify and Update KBs - apply the same change across a number of KB

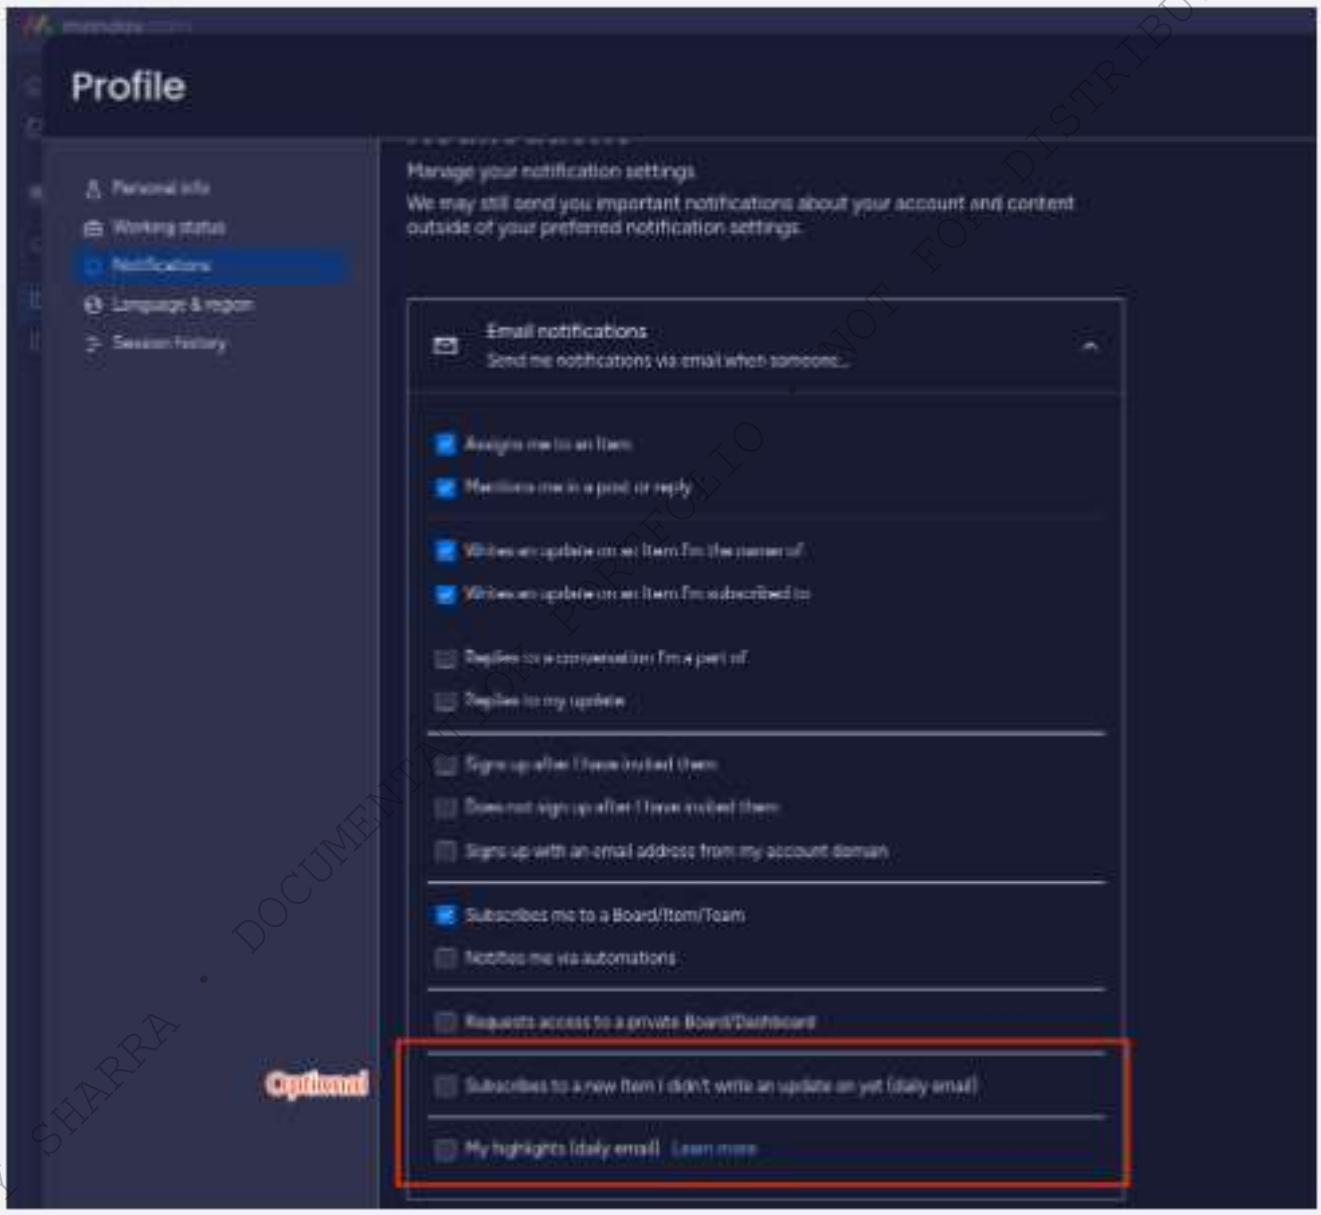

> The rest of the form's fields do have brief descriptions as to which details are required.

3. Once submitted, the ticket will appear in the Workspace's **Main Table** under the **New** status.

4. When the draft of a KB request is complete, the reviewers will receive a **manual email** with the updated draft link for their approval.

> To avoid receiving multiple automated Monday emails, please follow the notification settings below:

5. The request will move through the Main Table sections (grouped by status) as it progresses to completion.
