Stripe Setup & Settings

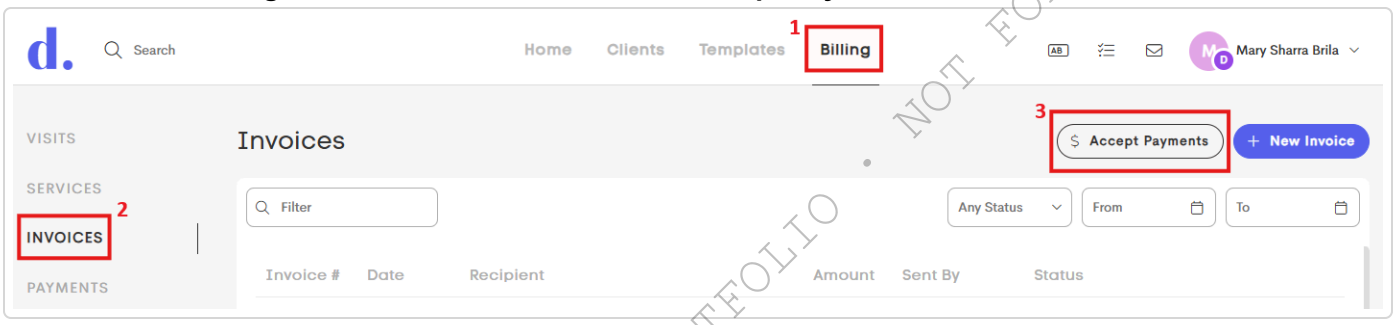

View in Help Scout (https://secure.helpscout.net/docs/64806a7eca8d057c065304f4/article/6a5fa8d32fdc0c037dc7f3d6)

Before accepting payments, complete your payment setup by connecting your Stripe account and configuring your preferred payment methods. You can also manage verification requirements, set primary payment methods, and control which payment options are available for your clients.

Connecting to Stripe

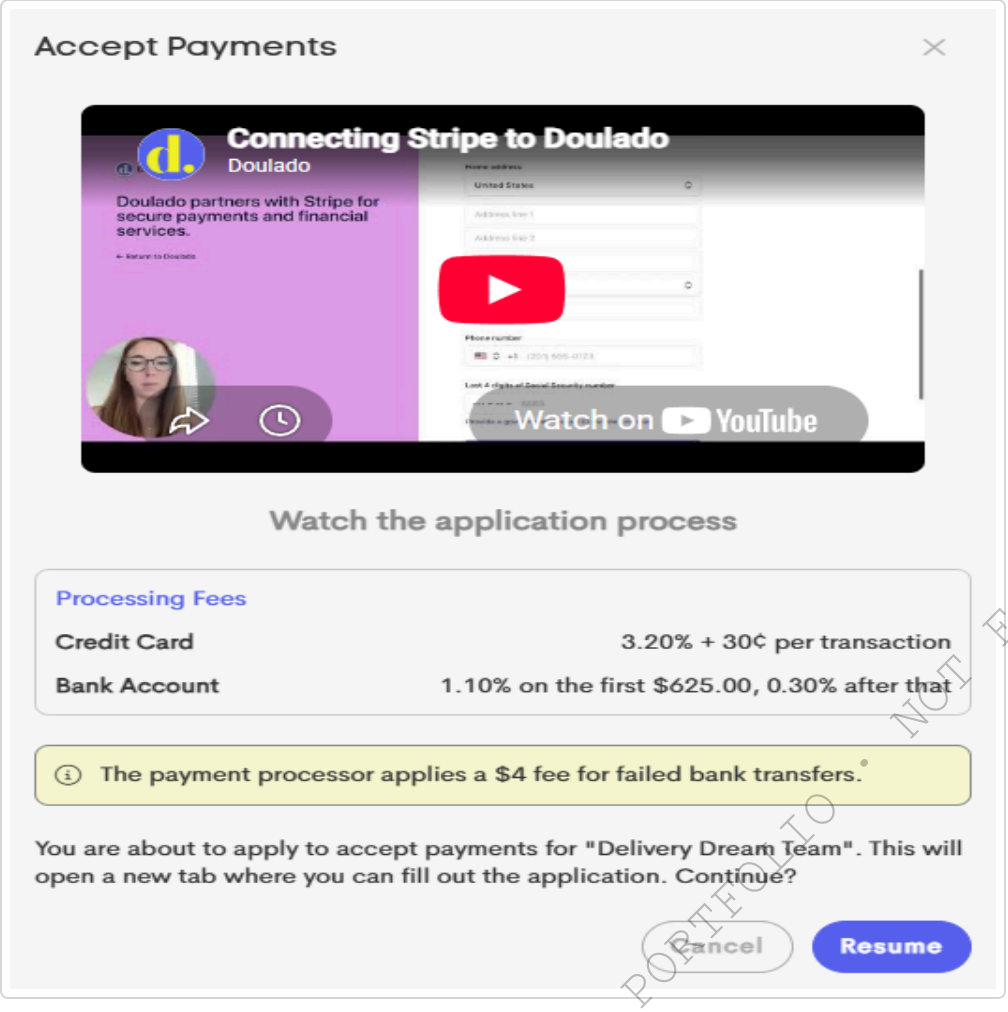

To start accepting online payments, you must link a **Stripe account** to your business.

1. Go to the main **Billing** tab > **Invoices**, and click on the **Accept Payments** button.

2. The **Accept Payments** window will open, showing you a walkthrough on filling out the onboarding form. Click **Resume** to continue.

3. In the next page, enter your business details and verify your identity to complete the onboarding process.
4. Once complete, you should be ready to process online payments.

Managing Payment Methods

Both you and your clients can add a payment method in the **Personal Profile** modal or when making payments.

Method	Verification	Processing Time	Surcharge Eligible
Credit & Debit Card (Visa, Mastercard, Amex, Discover)	Instant	Immediate	✅ Yes (2.9% + $0.30)
Bank Account (ACH) (Direct bank transfers)	Required (2 micro-deposits)	3-5 Business Days	✅ Yes (0.8%, max $5)

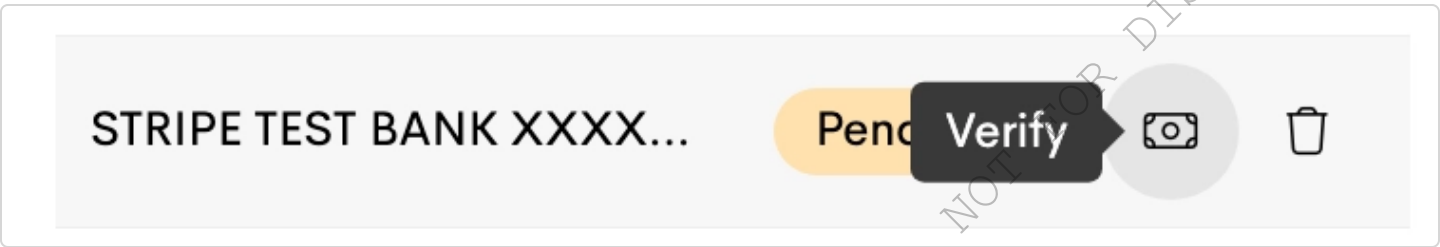

MARY SIARRA · DOCUMENTATION PORTFOLIO · NOT FOR DISTRIBUTION

Outside Payment (Cash, check, external)	None	Manual Entry	❌ No

Verification Process (ACH Only)

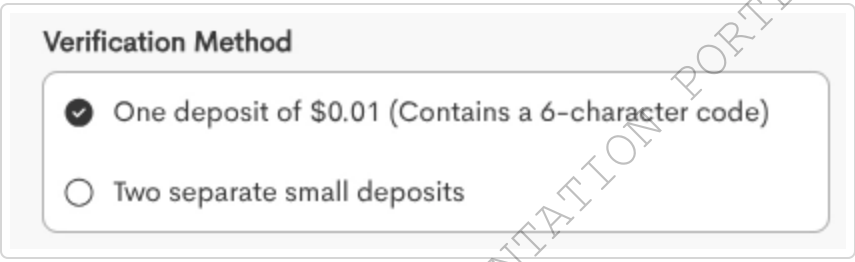

Within **1–2 business days**, one of the following will appear in your bank account:

- **Two small deposits**, or
- **A single $0.01 deposit** with a **6-character code** in the description (starting with **SM**).

If amounts entered are incorrect, after a total of 3 total attempts, the account must be re-added.

When verifying your bank account, choose the verification method that matches the deposit you received.

Primary Payment Methods

- The first payment method you add is automatically set as your **primary payment method**.
- Your primary payment method is selected by default whenever you make a payment.
- You cannot delete your primary payment method or a payment method currently used for a subscription plan.

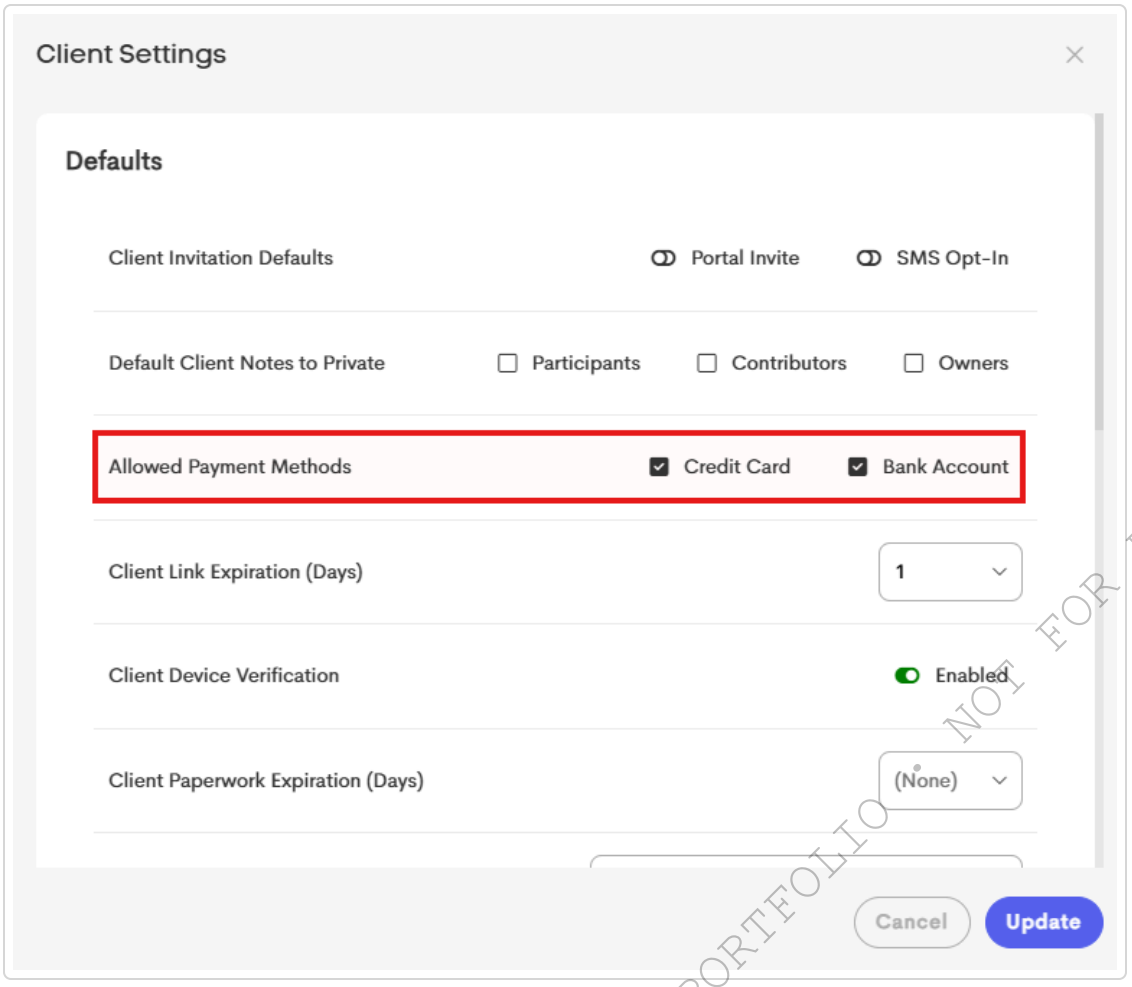

Restricting Payment Methods

You can control which payment methods clients can use on your business via two different ways:

Business Preference (Default for New Clients)

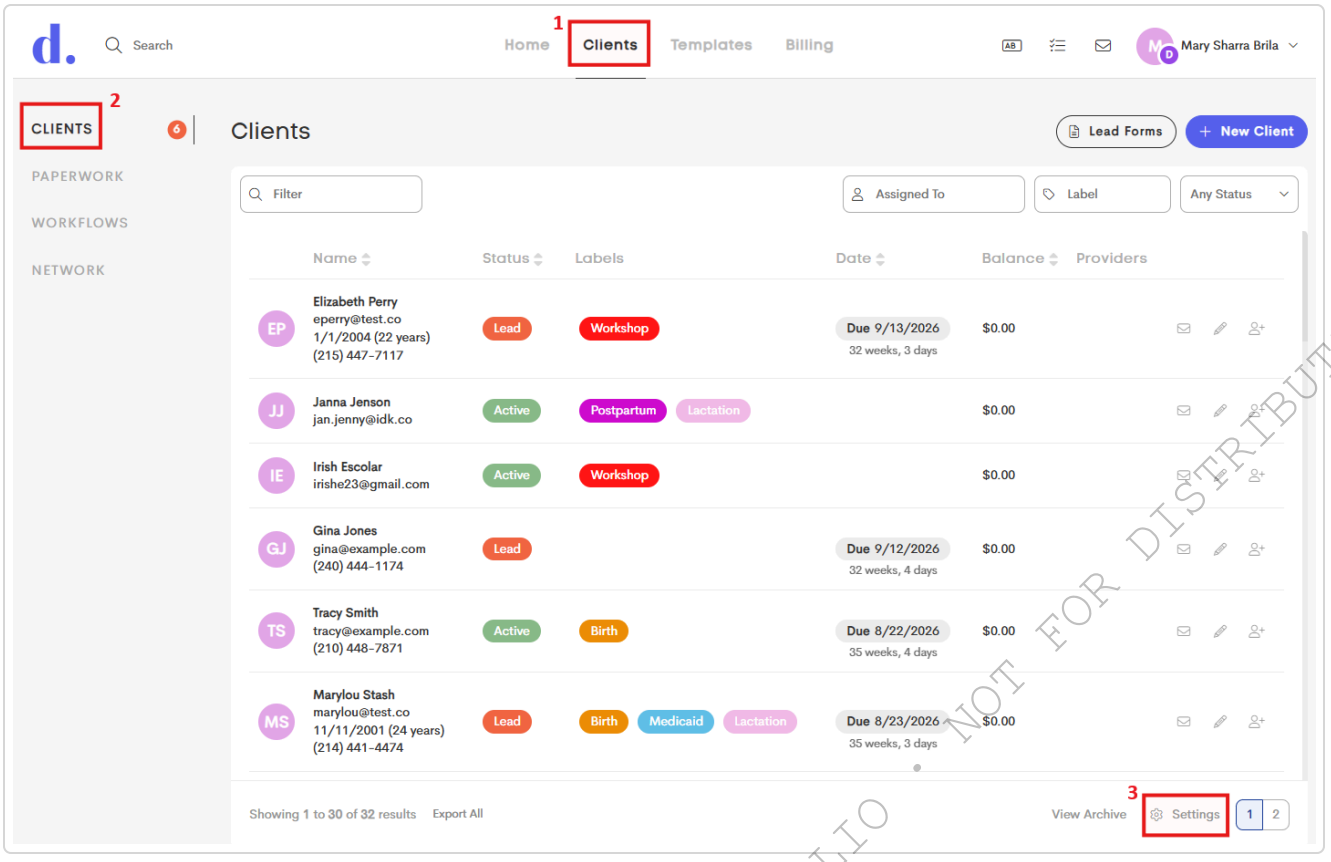

This sets the **default restrictions** for new clients added to your business.

MANU SHARMA · DOCUMENTATION PORTFOLIO · NOT FOR DISTRIBUTION

To configure this, go to your **Client List** and click on **Settings** at the bottom-right corner of the page.

> Changes to these settings only apply to **new clients**. Existing clients will keep their current payment method restrictions.

Client Journey Settings (Override)

Customize payment methods for an individual client.

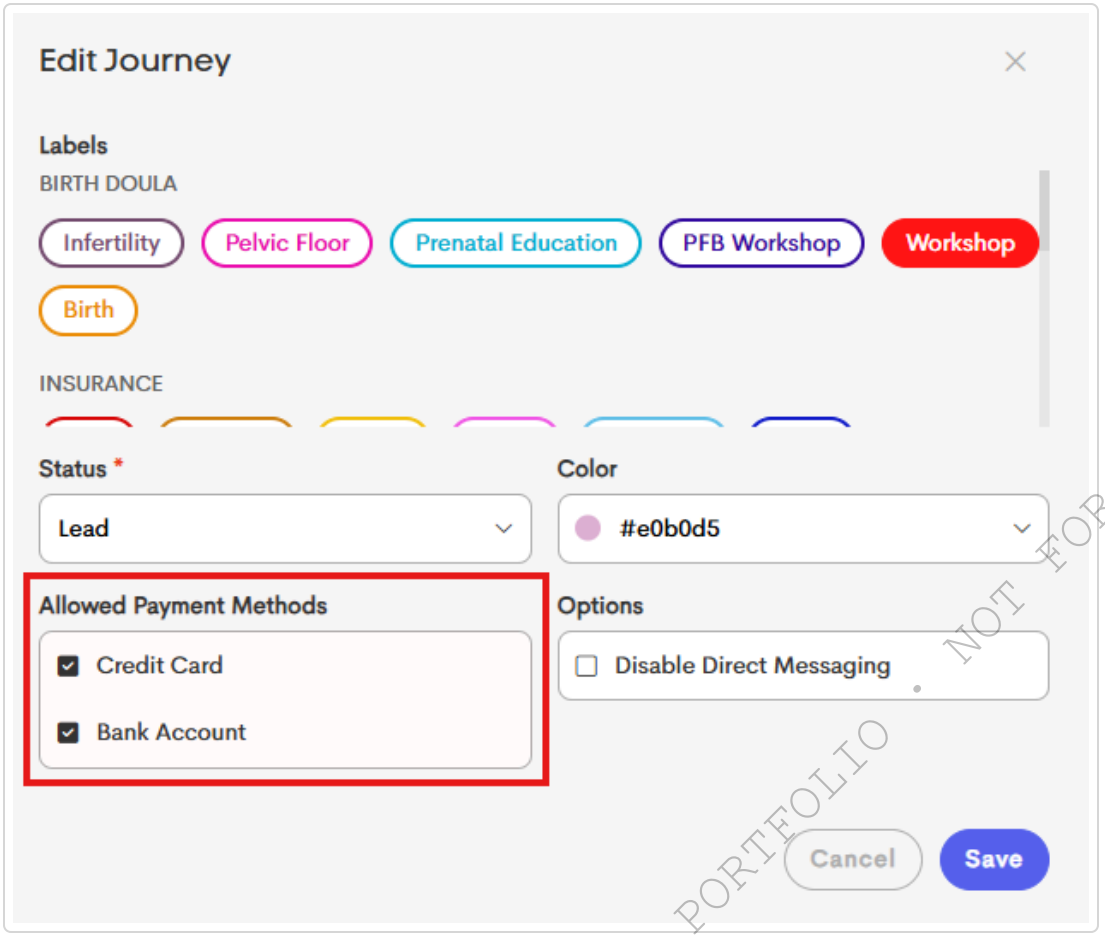

- Enable or disable payment methods for a specific client.
- Any payment method you disable will no longer appear as a payment option when the client selects **Make Payment**.

You can modify this setting by going to a **Client Journey**.
